

AICPA Auditor's Report Update

November 8, 2021 from 11:00am to 12:40pm Eastern Time

The auditor's report is getting an update. We'll review the key changes to the standards that will impact governmental and nonprofit entities. Changes are effective for calendar 2021 year ends and beyond. The AICPA has issued a suite of standards updating the auditor's report. In this course, we will review SAS 134 in detail which provides the basis for the updated audit report and introduces the concept of KAM. Then we will provide an overview of the impact of this suite on other information included in an annual report, special purpose frameworks, and compliance audits. This course is essential for auditors of all levels and will provide the overview you need to consider how to draft your updated audit reports.

Upon completion of this course participants will be able to:

- Identify changes to the auditor's report
- Recall conforming amendments to the 800 and 900 section of the auditing standards

Who Should Attend:

- Staff, managers, and partners at BKR International
