

THE BKR ADVANTAGE

Member Exclusivity

Perhaps the most unique advantage of BKR International is that our members gain market exclusivity in their city or metropolitan region for the services they offer. Once you are a member, we do not recruit competitor firms in your market. Our ultimate goal is to promote confident collaboration and referrals between firms. You can learn from each other. You can trust one another, knowing that your competitive advantage is secure among your #BKRrelationships.

Strategic Alliance Partners

BKR International has the best strategic alliance partners, all committed to doing their best to serve and refer member firms. From tax and audit, technology, and other specialty consulting, to target acquisition and growth strategies, you'll find your partners here.

Professional Development

Enjoy year-round live and virtual CPE courses with more than 20 industry practice groups. Our Managing Partners Roundtables and BKR's Leadership Institute cohort support current and emerging leaders. To support retention and recruitment, we encourage talent exchanges between firms and award annual scholarships to accounting students.

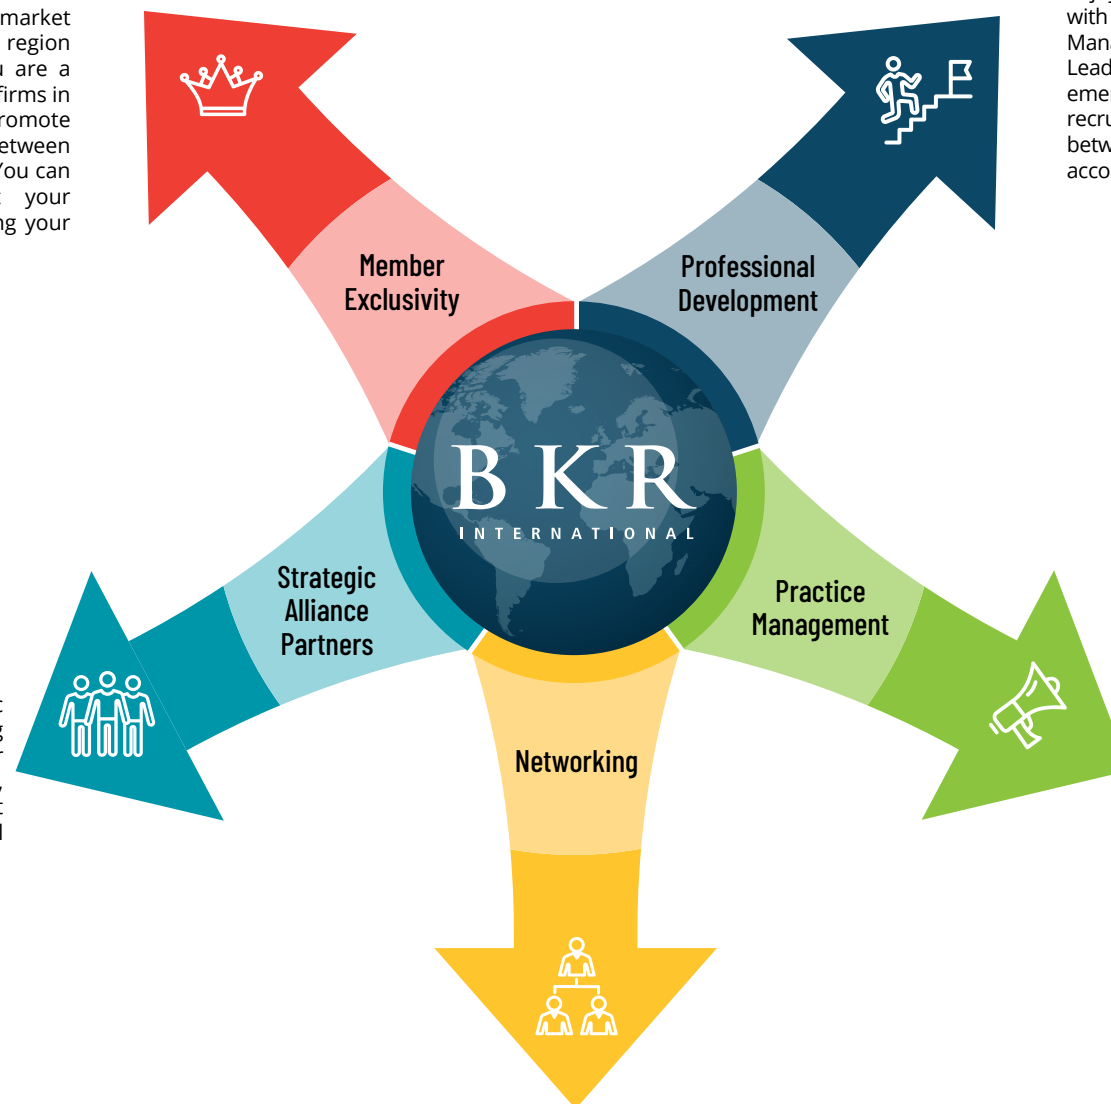

Practice Management

Practice Management includes resources, tools and content on tax, client accounting services, M&A, reporting and analysis, talent management, and more.

Networking

The networking never stops. Join us for a virtual networking event. Contact a member firm for guidance. Connect on social media. Attend our regional and global conferences. Opportunities to connect and become friends with other industry leaders are the highlight of membership. #BKRrelationships
